

Updates to the Tribunal Website

The Tribunal website has been updated to provide more information in a format that we hope you find useful. For example:

- Orders issued by the Tribunal are now organized by current orders, orders by year and all orders in charts that are sortable and searchable.
- Information about proceedings before the Tribunal and upcoming hearings is set out in an easily sortable and searchable format.

The Tribunal expects to add further enhancements early in the new year, including FAQs and links from the Orders to any related Reasons for Decision posted on the CanLII website.
